Q & A

WHAT HAS BEEN THE MOST REWARDING ASPECT OF YOUR CAREER?

Unlike many other professions, I get to see the results of my work first hand. Whether it be the sale of a company that I valued or a ruling on a case where I served as an expert witness, knowing that the work I have performed has an impact on the lives of others makes the job that much more rewarding.

WHAT WAS IT ABOUT LITIGATION SUPPORT THAT FIRST DREW YOUR INTEREST?

I am naturally a person who questions the motives of others, so litigation work is like second nature to me and is something I really enjoy. I think it is the investigative role that I get to play that drew me and has kept me in this line of work.
